FOR IMMEDIATE RELEASE

Creation Technologies and Rite-Hite Celebrate 35 Years of Manufacturing Excellence

BOSTON, MA — November 21, 2024 — [Creation Technologies](http://www.creationtech.com), an end-to-end, scalable Specialty Global Electronic Manufacturing Services provider, and Rite-Hite, a premier manufacturer of loading dock equipment and industrial safety solutions, today announce the celebration of their 35-year strategic manufacturing partnership.

Since 1989, this collaboration has exemplified the power of long-term partnerships in driving manufacturing innovation. Creation Technologies has been instrumental in manufacturing critical electronic assemblies for Rite-Hite's advanced loading dock equipment and industrial safety systems, contributing to both companies' growth and success in their respective markets.

"Our 35-year partnership with Rite-Hite represents more than just a supplier relationship – it's a testament to the power of shared values and a commitment to manufacturing excellence," said Stephen P. DeFalco, Chairman and CEO of Creation Technologies. "Together, we've navigated technological advances, market changes, and industry challenges while maintaining our focus on quality and innovation."

Rite-Hite has equally valued its relationship with Creation Technologies. As a leader in loading dock and in-plant solutions, Rite-Hite relies on Creation Technologies to ensure that their equipment meets the highest standards of quality and reliability.

"Creation Technologies has been an integral part of our success story," said Jamie Richmond, President, International and Global Operational Excellence at Rite-Hite. "Their expertise in electronic manufacturing services has enabled us to consistently deliver cutting-edge loading dock equipment and safety solutions to our customers worldwide."

The partnership has resulted in:

- Successful deployment of thousands of electronic control systems across Rite-Hite's product portfolio
- Continuous improvement in manufacturing processes and quality control
- Joint development of innovative solutions for industrial safety applications
- Sustained growth and market leadership for both organizations

This enduring partnership showcases how collaboration between an electronics manufacturing services provider and an industrial equipment manufacturer can drive innovation and create lasting value in the manufacturing sector.
