Datest Is a Five Time Winner of the Service Excellence Awards

FREMONT, CA — April 2021 — Datest, a leading provider of advanced, efficient and mission-critical in-circuit testing, test engineering and X-ray inspection solutions, received the 2021 *CIRCUITS ASSEMBLY* Service Excellence Award (SEA) for its outstanding customer ratings. The award was announced during a special online awards ceremony on Tuesday, April 6, 2021. This is the fifth time that Datest has received this award in the Test Laboratories category.

“Once again Datest has won the coveted Service Excellence Award in its category, our fifth in six years, stated Robert Boguski, Datest President. “We appreciate and do not take for granted the comments and constructive criticism of our customers. Without them we wouldn’t have a business. With them, and with supporting them, we gain friends and valuable references, as this award attests. We are grateful beyond words for their patronage and encouragement. We eagerly look forward to serving them and their referrals, now and in the years ahead.”

With more than 36 years of expertise, Datest offers in-circuit testing (ICT), flying probe testing, X-ray inspection, boundary scan/JTAG testing, functional testing, failure analysis and other related services. Datest is an ISO9001:2015, ITAR and AS9100D-certified company, and a member of SMTA, IPC, IEEE, EIPC and ASNT.

Sponsored by CIRCUITS ASSEMBLY the Service Excellence Awards for Electronics Manufacturing Services (EMS) providers and electronics assembly suppliers honor companies excelling in the crucial area of customer service. The program, now in its 29th year, functions as a way for participants to see how they compare to peers in customer satisfaction. It is awarded based on responses from the actual customers.

###

About Datest

Datest was founded in 1984 to address the growing trend of outsourcing assembly test services, together with increasing OEM demands that EMS providers deliver fully tested, functioning product. The company integrates

traditional electrical board test methodologies (ICT, Flying Probe, and JTAG/Boundary Scan) with failure analysis (nondestructive as well as destructive), reverse engineering and “bonepile” rehabilitation, functional test development, and analytical laboratory services. Datest also offers comprehensive X-ray services (2D, 3D, and CT) for root cause analysis, high-level inspection and metrology, and dispute resolution. The Datest suite of services includes a 225kV microfocus CT system from VJ Technologies, offering CT scanning and failure analysis services for all manner of larger objects besides printed circuit board assemblies. Datest is ITAR registered and has a quality management system (QMS) that is certified to ISO9001:2015 and AS9100D. Datest is a member of SMTA, IPC, IEEE, EIPC and ASNT (American Society for Nondestructive Testing).
