**FOR IMMEDIATE RELEASE**

**Green Circuits Reinforces Commitment to High-Quality Standards with ITAR and J-STD-001 Space and Military Addendum Certifications**

**SAN JOSE, CA — August 2024 —** Green Circuits, a full-service Electronics Manufacturing Services (EMS) partner to leading OEMs, is proud to emphasize its commitment to the highest quality standards through its continued compliance with ITAR (International Traffic in Arms Regulations) and J-STD-001 Space and Military Addendum certifications. Green Circuits is dedicated to delivering exceptional products and services to the aerospace, defense and other high-reliability sectors.

The ITAR certification ensures that Green Circuits complies with U.S. regulations on the export and handling of defense-related materials and technologies. This certification positions the company as a trusted partner for defense contractors and other organizations requiring stringent controls on sensitive information and products.

The J-STD-001 Space and Military Addendum certification reflects Green Circuits' expertise in meeting the rigorous requirements for soldered electrical and electronic assemblies in space and military applications. This certification is a testament to the company's ability to produce reliable, high-quality products that meet the critical standards demanded by these industries.

"As we continue to serve the defense and aerospace markets, our ITAR and J-STD-001 Space and Military Addendum certifications play a crucial role in demonstrating our pledge to quality and security," said Michael W. Hinshaw, Jr., Chief Executive Officer of Green Circuits. "These certifications not only validate our processes but also assure our customers that they can rely on us for their most sensitive and mission-critical projects."
