### FOR IMMEDIATE RELEASE

## Intraratio Receives 2024 SMTAI Global Technology Award for AI-Driven MES Platform

**SAN DIEGO, CA — October 2024** — Intraratio, the leading provider of Advanced Manufacturing enterprise software solutions, is proud to announce that its AI-Driven MES Platform has been selected to receive the SMTAI 2024 Global Technology Award in the category of MES Software. The award was announced on Wednesday, Oct. 22, 2024, at the awards ceremony during SMTA International. This recognition highlights Intraratio's groundbreaking work in integrating AI machine learning across the entire production process, offering the only out-of-the-box solution that fully automates quality control across all manufacturing operations.

Intraratio's MES platform is deployed globally, supporting single-site to multi-factory installations across multiple geographies, including USA, Mexico, Europe, and China. The platform comprises four integral products: RunCard (MES), DataCard (IoT/Yield), ServiceCard (B2B, M2M), and AiCard (ML outlier detection). This comprehensive suite of tools addresses the critical needs of complex manufacturing industries such as Silicon Photonics, semiconductor wafer fabrication, module assembly through PCBA SMT, and final system assembly.

"Our platform's ability to integrate AI-driven insights across the entire production process is a game-changer for industries seeking to enhance quality control and operational efficiency," said Intraratio CEO Ryan Gamble. "Our innovative approach has positioned us as a trusted partner for some of the most demanding manufacturing environments, producing the most complex optical and electronics products in the world. We are proud to offer solutions that empower manufacturers to achieve excellence in their production processes."

Since 2005, the prestigious Global Technology Awards have recognized the absolute best new innovations in printed circuit assembly and packaging industries. It brings together the global SMT and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward. ### About Intraratio

Backed by over 30 years of global high-tech engineering and manufacturing experience, the Intraratio platform

breaks the accessibility and integration limitations of existing software systems – putting data-driven innovation and improvements at the fingertips of those who are passionate about operational excellence.
