**FOR IMMEDIATE RELEASE**

## Libra Industries Appoints Senior Director of Operations at Libra – Dayton SI

**MENTOR, OH — April 2021 —** Libra Industries, a privately-held systems integration and electronics manufacturing services (EMS) provider, has named Bruce Parisey Senior Director of Operations of Libra Dayton SI.

Jim Kircher, CEO, commented: “Bruce is an outstanding addition to the team. He is a well experienced manufacturing leader, with more than decades of experience in a variety of manufacturing environments.”

Parisey’s background is broad and deep, having held positions as a Test Engineer, Assistant Manufacturing Manager, Test Engineering Manager, Workcell Manager, Global Test Manager, Senior Operations Development Manager, Operations Director and Senior Director of Operational Development. His background includes lengthy stints at both Benchmark and Jabil. Parisey also is a US Army Veteran. He will be moving to Dayton with his wife Judi.

Libra Industries continues to invest to provide customized manufacturing solutions to help make its customers more competitive and improve their profitability. For more information about Libra Industries, visit [www.libraindustries.com](http://www.libraindustries.com).

### About Libra Industries

Libra Industries is a leading provider of Systems Integration & Electronic Manufacturing Services (EMS), serving OEMs with complex or technologically sophisticated manufacturing requirements in a broad range of industries including Medical, Mil/Aerospace, Industrial, Semiconductor, Robotics and Communications. Six world-class manufacturing facilities allow Libra Industries to provide customers with manufacturing flexibility including complete system build, module and subassembly production, as well as simple to complex PC board assembly. With an ongoing commitment to investment in people, quality systems, and the latest manufacturing equipment and processes, Libra Industries is committed to managing their clients’ products from initial design and prototype to full production; assisting their clients in their efforts to improve time to market, reduce total systems cost, and increase quality.
