## Murray Percival Company Expands Demo Room with Advanced Manufacturing Equipment

**AUBURN HILLS, MI – September 2024** – The Murray Percival Company, the premier manufacturer’s rep in the Midwest and one of the longest tenured distributors in the electronics industry, is excited to announce the addition of four state-of-the-art pieces of equipment to their demo room. This expansion underscores the company’s commitment to providing their customers with the latest innovations and best-in-class solutions in electronics manufacturing.

The new equipment includes:

1. Hanwha XM520 High-Speed Dual Lane Chip Mounter: Recognized with the 2024 NPI Award for Component Placement - High-Speed, this machine offers unmatched speed, flexibility, and the ability to handle a broad range of production scenarios, including extra-large board applications.

2. MIRTEC MV-6 OMNI 3D AOI Machine: Equipped with exclusive 15MP/25MP CoaXPress Camera System, OMNI-VISION® 3D Digital Tri-Frequency Moiré Technology, and Industry 4.0 Intelligent Factory Automation System, this award-winning advanced AOI machine ensures precision in quality control with its leading-edge inspection capabilities.

3. Archimede Smart Racks by Kubler US/Arcadia: These award-winning innovative storage solutions from Arcadia provide intelligent, efficient management of electronic components, enhancing workflow and minimizing downtime in production environments.

4. Galileo Incoming System by Kubler US/Arcadia: This system offers a smart, automated solution for the handling and inspection of incoming materials, ensuring that production lines are supplied with components of the highest quality.

These additions to the demo room are designed to provide hands-on demonstrations, allowing customers to experience the cutting-edge capabilities of these technologies in a real-world setting.

“The expansion of our demo room with this advanced equipment is a significant step forward for us and our customers,” commented Mark Percival Jr., MARCOM Manager at Murray Percival Company. “These technologies represent the future of electronics manufacturing and having them available for live demonstrations allows our customers to see firsthand how they can optimize their production processes. We’re confident that this will provide them with the tools and insights they need to stay competitive in the ever-evolving electronics industry.”

Murray Percival Company invites all interested parties to schedule a visit to their Auburn Hills facility to see these cutting-edge solutions in action. This expansion is part of the company’s ongoing dedication to delivering top-tier customer service, innovation, and support to the electronics manufacturing sector.
