PDR Joins Forces with Circuit Technology Inc. in the Carolinas

Shingle Springs, CA — July 2021 — PDR, a leading manufacturer of BGA rework systems, test, and inspection equipment since 1985, announces that it has partnered with Circuit Technology, Inc. (CTI) as its manufacturers' representative in North and South Carolina.

Dave White, CEO of White Industrial Corporation, parent company of PDR Americas, states, "CTI is an amazing company that puts customers first, providing not only the know-how to get the job done but uniquely positioned to match applications to the best in equipment choices. We are proud to welcome CTI into the PDR family of experienced professionals to represent the PDR brand."

CTI is a manufacturers' representative group and IPC Master Training Center. The products represented by the company are used in electronics manufacturing and cover nearly every facet of circuit board production and repair as well as IPC training. For more information about CTI's products and services, contact Bob Doetzer at 919-552-3434 or on the web at www.circuittechnology.com.

PDR Rework Systems remains at the forefront of rework technology by providing air nozzle free systems with advanced in-process control features and visible light that takes the guesswork out of rework. PDR X-ray Solutions was founded in 2012, distributing and supporting X-ray Solutions for industry under the PDR Brand as well as other well-known X-ray Brands. For more information about PDR, visit www.pdr-rework.com or call PDR in the U.S. at 530-676-6262 or in the United Kingdom at +44 (0)1293 614 000.
