

Cutting-edge dry storage products and solutions with Totech Europe at Productronica 2021

Moisture Management Specialist Totech EU will feature its wide range of electronics dry storage and logistics Solutions at November's Productronica along with our partner ASYS at stand A3-277.

After what seems like an age without live events, the entire Totech team is looking forward to reconnecting with customers and prospects in person. This will be the first live event attended since lockdown began.

In the field of electronics dry storage and logistics, Totech consistently offers an innovative perspective with new, cutting-edge products and solutions which facilitate the path towards the industry 4.0 smart factory - and provide a competitive advantage to our customers.

Beyond showcasing our broad spectrum of [dry cabinets](#) and underlying [MSL software](#), which enables manufacturers of any size to comprehensively maintain control of all their component inventory, Totech will also preview new concepts for a small automated SMD warehouse and a vertical dry lift which is being designed to work in tandem with Totech's fully automated, robotically controlled, component handling and storage system - [The Dry Tower](#).

“Productronica 2021 will be special for us in many ways as it’s the first event that we will have attended live in 2 years, and we look forward to finally getting together again” commented Jos Brehler, CEO at Totech. “Our mission is to help manufacturers achieve their industry 4.0 goals with our real time monitoring and traceability of moisture sensitive inventory and to that end we’re very excited to unveil some of the exciting new concepts we’re developing”

From bench top cabinets to walk-in rooms to fully automated warehouse management, Totech’s extensive product line offers the industry’s greatest array of choices to precisely meet its evolving needs. Totech's expertise with specialist moisture control and cooling provides the backbone for our outsourced [Long Term Storage Solutions](#), LTS², which brings vital long-term component storage into product lifecycle and, along with our strategic partners, a comprehensive suite of interim testing and obsolescence management disciplines.

Delivering globally to the world’s top tier OEM and EMS companies, and manufacturing in Asia and in Europe, Totech has become the industry measure for ultra-low humidity storage cabinets. Proper control of moisture sensitive devices (MSDs) per IPC and JEDEC standards has become more critical than ever since the introduction of lead free and its higher reflow temperatures. Boasting <1% relative humidity control and the fastest recovery times, Super Dry cabinets are available in a wide range of sizes and configurations, all with certified performance control measures. Totech Dry Tower Systems comprehensively solve the complex logistics problems central to manufacturing with moisture sensitive devices in 4.0 smart factories.

As of May 2017 [ASYS automation Group \(Dornstadt, Germany\)](#) became a majority investment partner.
