

ROCKA Solutions' Products Receive Two GLOBAL Technology Awards

QUERETARO, MEXICO — November 2023 — ROCKA Solutions is pleased to announce that it received two 2023 GLOBAL Technology Awards in the categories of Conformal Coating Materials and Assembly Tools. The awards were announced during an award ceremony that took place at productronica in Munich on Nov. 14, 2023.

Revolutionizing Protection with Actnano's Titan Series Advanced nanoGuard™

ROCKA Solutions and Actnano were awarded for the groundbreaking Titan Series Advanced nanoGuard™. This nanocoating technology introduces a transformative solution in electronics protection. Built to withstand water and environmental challenges, the wet ANG coatings can be seamlessly applied on connectors, antennas, LEDs, and high heat-generating components. This technology marks a significant leap in safeguarding electronics, particularly in demanding industries such as automotive and consumer electronics.

Actnano's scalable, turnkey solution empowers manufacturers to enhance the durability and longevity of their devices, ensuring uncompromised performance even in the harshest conditions. This achievement underscores ROCKA Solutions' dedication to introducing innovative solutions that redefine industry standards and address real-world challenges. Pioneering Efficiency with Router Bits with MicroSpeed Diamond Coating

ROCKA's pioneering Router Bits with MicroSpeed Diamond Coating stood out as an exceptional innovation that redefines efficiency, precision, and durability. The MicroSpeed diamond coating is an embodiment of cutting-edge technology, boasting a cubic crystal structure identical to that of natural diamonds. Developed through a unique HF-CVD process and consisting of patent-pending multilayer compositions, this revolutionary coating is exclusive to solid carbide tools within a diameter range of 0.10 to 8.0 mm.

With the MicroSpeed Diamond Coating, ROCKA Solutions has set a new industry benchmark, offering assembly tools that excel in performance and longevity. This recognition underscores the

ROCKA Solutions' Products Receive Two GLOBAL Technology Awards

company's unwavering commitment to delivering tools that empower manufacturers to achieve unparalleled results and efficiency.

The GLOBAL Technology Awards, established in 2005, have become an industry benchmark, celebrating exceptional standards and groundbreaking solutions within the global SMT and advanced packaging industry. The award recognizes companies and individuals who consistently drive the industry forward with their outstanding innovations.
