SP Manufacturing Celebrates Grand Opening of New Factory in Senai, Malaysia

Singapore — October 2024 — SP Manufacturing Pte Ltd., a leader in comprehensive electronic manufacturing services, is thrilled to announce the grand opening of its new factory in Senai, Malaysia, marking a significant milestone in the company's journey. This state-of-the-art facility enhances the company's operational resilience and positions SP Manufacturing to meet growing customer demand in the region.

The new factory reflects SP Manufacturing's ongoing mission to deliver high-quality and timely service across all operations. It will complement SPM's existing global facilities, providing the same level of excellence that customers have come to expect.

"This achievement is a testament to the hard work and dedication of our entire team," said Jackson Tan, Global Business Development Director at SP Manufacturing. "We look forward to writing the next chapter of the SPM story as we continue to grow, innovate and deliver unmatched value to our customers."

The Senai facility is equipped with comprehensive manufacturing capabilities, including:

- Advanced electrical and functional testing
- In-circuit testing and automated optical inspection (AOI)
- State-of-the-art cleaning processes
- Rigorous inspection protocols

- Rapid prototyping and expert assembly processes

In addition to these technical capabilities, SP Manufacturing excels in supply chain management, ensuring the timely delivery of high-quality components and seamless support for its customers.

SP Manufacturing serves a broad range of industries, including Medical Devices, Mission Critical, Automotive, Aerospace and Defense, Industrial Equipment, Telecommunications, and Renewable Energy. This diverse market reach reflects the company's ability to adapt and meet the unique needs of a variety of industries.
