Navigating Current Market Dynamics

Interview with Mark McMeen by Nolan Johnson

STI Electronics, Inc.’s Mark McMeen Gives Interview With I-Connect007’s Nolan Johnson

MADISON, AL - July 2021 - STI Electronics, Inc., a full-service organization including engineering, contract manufacturing and training services, announced that PCB007 Magazine releases the interview given by Mark McMeen, VP Engineering Services/Manufacturing to I-Connect007’s Nolan Johnson, “Navigating Current Market Dynamics.” To read the full article, click <https://cutt.ly/ZmJit1U>.

Nolan chats with Mark McMeen of STI who provides an overview of the complicated market dynamics in place due to material shortages and long lead times. He describes what strategies OEMs and CMs are doing to survive this difficult stretch while also planning for an economy ramp up.

About STI Electronics, Inc.

Since 1982, STI Electronics, Inc. (STI) has been the premier full service organization for training, consulting, laboratory analysis, prototyping, and contract PCB assembly in the electronics industry. STI also produces a complete line of solder training kits and training support products. For more information, visit <https://stiusa.com>.
