FOR IMMEDIATE RELEASE

STI to Sponsor “J-STD-001H Objective Evidence for Reliability Workshop” Presented by Magnalytix and Restriconics Southeast

MADISON, AL — August 2022 — STI Electronics, Inc., a full-service organization including engineering, contract manufacturing and training services, today announced that it will sponsor the upcoming J-STD-001H Objective Evidence for Reliability Workshop, scheduled to take place Thursday, Aug. 25, 2022 at STI’s facility in Madison. The workshop will be conducted by Magnalytix and Restriconics Southeast.

IPC-J-STD-001H is a must-have for those in the electronics industry with an interest in the process and acceptance criteria for electrical and electronic assemblies. The standard is recognized globally for its criteria on soldering processes and materials. Updated with participants from 27 countries providing input and expertise, the IPC-J-STD-001H standard brings the latest criteria to the industry including guidance on the use of X-ray to inspect through-hole solder conditions that are not visible by any other means.

Save the date for the one-day event that will include a panel of interesting discussions concerning Objective Evidence, including a presentation and hands-on demo of the OE-300 SIR Testing System and other Magnalytix Services.
