TopLine® Exhibiting in 58th annual NSREC IEEE Conference

Irvine California, USA – TopLine Corporation will exhibit in the 58th annual IEEE Nuclear and Space Radiation Effects Conference (NSREC), which will have its first Virtual Conference and Exhibition beginning November 29 and accessible through December 30. Live virtual Exhibits will be accessible December 1-8.

Visitors to TopLine’s virtual booth will be able to chat with Martin Hart, CEO, as well as Jared, Steve and Teresa.

Visitors may also enter the TopLine Raffle for a \$100 Amazon Gift Card and attend TopLine’s December 4, 2:00-2:30pm EST Virtual Webinar titled “Solder Columns - Extending Operating Life For 20 Year Missions.” TopLine specializes in repairing and restoring valuable Column Grid Array (CGA) FPGA components to usable condition by replacing bent or damaged solder columns with fresh solder columns made in the USA. FPGA devices with solder columns are primarily used in space defense applications. TopLine also manufactures Pb80/Sn20 copper wrap solder columns as well as traditional Pb90/Sn10 columns. Columns and attachment tool kits are produced in the USA.

NSREC is the leading conference on radiation effects on integrated circuits and worldwide attendance is expected at 500. TopLine will exhibit Column Grid Arrays at NSREC. The conference will “go live” on-line from November 29 through December 8 with added opportunities for attendees to interact with speakers, exhibitors, and one another including TopLine personnel. The content will continue to be available online until December 30, 2020. For more information about the show, visit <http://www.nsrec.com/>.

About TopLine

TopLine manufactures a wide range of solder columns for CCGA semiconductor packages, and provides Daisy Chain CCGA packages for engineering development, profiling and practice. TopLine products provide hands-on learning for engineers. Contact TopLine Corporation, Tel (800) 776-9888; Email: info@TopLine.tv. For more information, visit www.CCGA.tv or email info@TopLine.tv.
