

URtech Manufacturing Wins Prestigious Industry Award during productronica

FORT LAUDERDALE, FL – November 2021 – URtech Manufacturing, a North American provider of end-to-end Electronic Manufacturing Services (EMS), received a 2021 GLOBAL Technology Award in the category of Contract Services \$25-50 million. The award was announced during a ceremony that took place Tuesday, Nov. 16, 2021 during productronica in Munich, Germany.

URtech provides a comprehensive suite of EMS services to leading OEM companies. Services extend from product concept to commercialization, supporting the entire product life cycle. The team builds trusting relationships with its customers that bring value and reliability to every partnership.

URtech is a full-service EMS provider specializing in producing full box products. The company was founded with two specialized service offerings: URStart (focus on helping OEM startup companies launch and commercialize new products) and UREcosystem (network of service partners to augment internal capabilities including design, functional test development and niche specialized service companies). With this background URtech is able to service a wide variety of OEM customers with order volumes of <10 units to over 200,000 units. The company's full box product capabilities include laser engraving, heat staking, ultrasonic welding and specialized testing including product provisioning.

The GLOBAL Technology Awards have recognized the very best new innovations in the printed circuit assembly and packaging industries since 2005. The prestigious awards contest has been bringing together the global SMT and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward. For more information, visit www.globalsmt.net/awards.

URtech manufactures and integrates electronics for a diverse range of end markets, with each industry having specific quality and traceability requirements. The company has manufacturing

sites in Toronto, Canada, Fort Lauderdale, Florida and soon Guadalajara Mexico, with a global supply chain team located in Shenzhen, China managing its mechanicals, PCB and custom component supplier community. For more information, visit www.urtechmfg.com.
