

Weller Tools Showcases Collective Strength in Soldering Solutions at SMTconnect 2024

Besigheim – May 2024 – Weller Tools, a leader in hand soldering solutions, is proud to announce its participation in the upcoming SMTconnect exhibition, scheduled to take place from June 11-13, 2024 in Nuremberg, Germany. Under the theme #PowerfulTogether, Weller emphasizes the collective strength formed when individuals and tools unite seamlessly to achieve remarkable results.

Weller Tools will showcase together with its rep Hörl Industrievertretungen a range of innovative products and solutions designed to enhance productivity, precision and performance in soldering applications. Among the highlights stealing the spotlight are the WXsmart Soldering Station and the ZeroSmog Shield Pro Fume Extraction system.

WXsmart Soldering Station - Redefining Hand Soldering:

The WXsmart Soldering Station represents a new era in hand soldering technology. This innovative platform offers a comprehensive solution catering to all soldering application needs. With the ability to connect up to 16 different tools, the WXsmart Station accommodates component sizes from 0402 to 1612 and beyond, streamlining operations and boosting productivity. Its seamless incorporation of the WXair Rework Module expands capabilities to cover soldering, desoldering, and rework applications.

Focus on Active RT Soldering Tips:

Weller Tools showcases its Active RT soldering tips, fully compliant with IPC industry standards. The boomerang handle design, ergonomic grip, and quick, toolless tip changes make the extended RT series an ideal choice for precision work on components of all sizes.

ZeroSmog Shield Pro Fume Extraction - Ensuring Impeccable Air Quality:

Weller presents the ZeroSmog Shield Pro, a state-of-the-art solder fume filtration system revolutionizing individual workstations. This system ensures impeccable air quality by capturing solder particles and gases, providing a healthier working environment. Its compact and stackable design maximizes workspace, and features like work zone identification and filter condition monitoring enhance the overall user experience.

Visit Weller Tools at Booth Hall 4-221 (Hörl Industrievertretungen) at SMTconnect 2024 to experience the collective strength of soldering solutions. Join the #PowerfulTogether movement and unlock new possibilities in soldering excellence.

About Weller Tools

The Weller name stands for pioneering solutions on and around the soldering bench. Founded in 1945, the company quickly grew to become the market leader in its segment. Weller's extensive range of products includes innovative solutions for industry and trade. The company's areas of expertise include conventional soldering technology, extraction systems, precision tools as well as many other benchtop products and services.
