## **PRESS RELEASE    For Immediate Release    November 14, 2023**

### **ZERO DEFECTS INTERNATIONAL TO EXHIBIT AT SMTA SILICON VALLEY EXPO AND TECH FORUM**

**San Jose, CA:** Zero Defects International [ZDI] has announced their participation as an exhibitor at the SMTA Silicon Valley Expo and Tech Forum. It will be held at Building 3 on the FLEX campus located at 727 Gibraltar Drive, Milpitas, CA. Expo time and date: 8:30 AM, Thursday December 7th.

Foremost among the PCBA test and inspection products to be shown will be Viscom's AOI, X-Ray and SPI inspection equipment. The Viscom display will include updates on the very latest enhancements for each of these products. Also, ZDI will have information on their flying-probe test services as well as their reverse engineering and failure analysis services. Additional ZDI partners, for which information will be available, include Europlacer [PCBA assembly equipment], Velan [PCB and PCBA engineering services], Tagarno [digital microscopes], Epoch International [PCBA functional test fixtures] and Pacific Trinetics Corporation [smart component storage and inventory control cabinets]. ZDI personnel will be in attendance along with Europlacer and Viscom sales management representatives.
