

Koh Young America Expands Sales Network with Electronic Assembly Products for Colorado and Utah

Atlanta, Georgia – Koh Young America, the global leader in True 3D measurement-based inspection and metrology solutions, is pleased to announce the addition of Electronic Assembly Products, Inc. (EAP) as its sales representative for Colorado and Utah, effective March 3, 2025.

Founded by James Lyndon, EAP has built a strong reputation as a premier manufacturers' representative organization serving the Rocky Mountain region. With deep industry expertise and a commitment to providing cutting-edge manufacturing solutions, EAP supports a diverse customer base spanning aerospace, automotive, electronics, light industrial, medical, and military industries.

"Expanding our sales network with Electronic Assembly Products strengthens our ability to serve manufacturers in the Mountain States," said Allen Phung, Head of Sales at Koh Young America. "Jim and his team bring extensive industry experience, technical expertise, and a customer-focused approach that aligns perfectly with our mission. We are excited to partner with them to deliver best-in-class SPI and AOI inspection and metrology solutions."

EAP's James Lyndon shared his enthusiasm about representing Koh Young, stating, *"We are thrilled to add Koh Young, the global leader in True 3D measurement-based inspection and metrology, to our portfolio. Koh Young's industry-leading technologies will bring exceptional value to our customers, helping them enhance quality, optimize processes, and achieve manufacturing excellence. We look forward to working closely with the Koh Young team and supporting manufacturers throughout the region."*

With a strong presence in Colorado and Utah, Electronic Assembly Products will provide local expertise and hands-on support for manufacturers seeking to improve yield, reliability, and efficiency through advanced inspection and metrology solutions. ###

About Koh Young Technology, Inc.

Founded in 2002, Koh Young pioneered the industry's first 3D Solder Paste Inspection (SPI) system using patented dual projection Moiré technology. Today, it leads the market in 3D SPI and Automated Optical Inspection (AOI) solutions, with over 24,000 systems installed worldwide at 3,700 global customers and growing. Koh Young's True 3D technology addresses challenges in electronics manufacturing including surface mount, through-hole, pin insertion, conformal coating, machined parts, semiconductor wafers, and advanced packaging. Guided by user-focused R&D, the company continues to innovate and address evolving market needs. With headquarters in Korea and regional offices worldwide, Koh Young remains close to its customers, delivering trusted solutions for smart manufacturing.
