KYZEN to Provide Solutions to Drive Reliability at the Battery Show

NASHVILLE — September 2025 — KYZEN, the global leader in innovative environmentally responsible cleaning chemistries, will exhibit at The Battery Show North America from Oct. 6-9 at Huntington Place in Detroit, MI. The KYZEN team will highlight aqueous electronics cleaners AQUANOX A4618 and the KYZEN Process Control System (PCS) at Booth 1628.

KYZEN invites attendees of The Battery Show to experience its full lineup of effective and safe cleaning chemistries for electronic assemblies like the AQUANOX product line including AQUANOX A4618 and the KYZEN Process Control System (PCS) to simplify and streamline process control.

[AQUANOX A4618](#) will be highlighted and is one of KYZEN's lead aqueous cleaning chemistries designed to clean all flux types, including no-clean and Pb-free residues. It is easy-to-use, safe for multi-pass applications and has a long tank life. AQUANOX A4618 is a low VOC solution and works most effectively when used at low temperatures and low concentrations.

The [KYZEN Process Control System](#) controls, monitors and automatically reacts to the dynamic changes in wash concentrations allowing users to maximize high-quality output from inline cleaning systems. KYZEN has continuously improved and advanced the capabilities of the KYZEN PCS from its introduction more than 20 years ago, and it remains the only complete concentration monitoring and control system available in the world.

For more than 35 years, KYZEN has formulated and provided award-winning cleaning chemistries to meet the unique cleaning needs of electronics manufacturers around the globe. For more information, visit www.kyzen.com.

About KYZEN

KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards.
