KYZEN's Rueda and Bivens to Present at Parts Cleaning Conference 2026

NASHVILLE — June 2026 — KYZEN, the global leader in innovative environmentally responsible cleaning chemistries, announced today that Fernando Rueda, KYZEN's Global Product Line Director – Industrial, and Beth Bivins, KYZEN's Global Product Line Manager - Solvents will each present at the 2026 Parts Cleaning Conference scheduled to take place Tuesday, July 7, 2026, at the Hilton Columbus Downtown in Columbus, OH.

Bivins will co-present "Collaborating to Replace 3M Novec 72DA for Cleaning Implantable Medical Devices" with Brandon Fogg of Arthrex Manufacturing as part of the Solvent Cleaning Processes module from 1:30-2:00 PM on Wednesday, July 8. The presentation will describe the collaboration between KYZEN and Arthrex to replace 3M Novec 72DA for cleaning implantable medical devices and highlight multiple cleaning trials, the validation activity taking place for qualification at Arthrex, including interaction with EHS and Supply Chain to effectively move the qualification process in an efficient manner and much more.

Rueda will present "Next-Generation Cleaning Technologies Transforming MRO and Remanufacturing Processes" during the "Specific Applications (Medical, Aerospace, Automotive, etc.)" module on Thursday, July 9 from 12:00-12:30 PM. The presentation will explore emerging solutions setting new industry standards for cleanliness and performance assisting in remanufacturing and aircraft maintenance operations to restore complex components sustainably. Rueda will provide insight regarding how these technologies can reshape operational workflows, improve product consistency, and support circular manufacturing models aligning with global sustainability goals.

For more than 35 years, KYZEN and the Clean Team have provided innovative cleaning technologies and expertise to help manufacturers address and resolve their unique cleaning challenges. Additional details about the 2026 Parts Cleaning Conference and registration information can be found [here](#).

About KYZEN

KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to

metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards. For more information, visit www.kyzen.com.
