Two KYZEN Aqueous Chemistries and Process Control to Be Featured at SMTA Ohio Valley Expo & Tech Forum

\NASHVILLE — August 2026 — KYZEN, the global leader in innovative environmentally responsible cleaning chemistries, will exhibit at the SMTA Ohio Valley Expo & Tech Forum, scheduled to take place Thursday, August 20 at the Embassy Suites by Hilton Cleveland-Rockside in Independence, Ohio. KYZEN Clean Team member Will Sweet will be on-site to provide information about award-winning cleaning chemistry AQUANOX A4618 and real-time concentration monitoring & reporting system, KYZEN ANALYST².

The AQUANOX line of aqueous cleaning chemistries, including AQUANOX A4618, from KYZEN are formulated to meet a variety of electronics cleaning challenges removing solder flux residues and their concentrations are effectively monitored by systems like KYZEN ANALYST².

[AQUANOX A4618](#) is a groundbreaking aqueous cleaning chemistry designed to address the challenges of cleaning contemporary lead-free flux residues, including no-clean residues, while achieving immaculate, mirrored solder finishes. It is formulated to effectively clean all flux types and boasts a long tank life and outstanding materials compatibility in addition to high efficacy at lower concentrations and temperatures.

The award-winning [KYZEN Analyst²](#) uses advanced sonic velocity technology to measure more than 60 cleaning solutions from a variety of brands in real-time. The easy-to-install system provides more precise measurements than other sonic velocity instruments with those measurements being independent of conductivity, color or transparency of the liquid.

For 35 years, KYZEN has developed innovative chemistries like AQUANOX A4618 in addition to effective measurement tools like KYZEN ANALYST² to bring greater cleaning efficacy to a variety of electronics assembly cleaning processes.

About KYZEN

KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards.
