Weald Electronics appoint Rayfast as new UK Distributor **Appointed to increase presence in Aerospace, Defence, Energy,** **Industrial, Medical and Motorsport markets**

[Weald Electronics Ltd.](#), a major UK manufacturer of electrical connectors and accessories for defence and demanding industrial applications, have appointed [Rayfast](#) as their new UK distributor.

Rayfast is a leading stocking distributor of quality interconnect solutions as well as high-performance harness components and electro-mechanical products. Their key markets include Aerospace, Defence, Energy, Industrial, Rail and Motorsport, which are supported by an experienced team, with technical specialists by sector and product.

Weald Electronics is known for its comprehensive selection of circular bayonet and screw coupling connectors such as the LMH, LMJ, LMV and LMG series, produced in a choice of materials and finishes and leads the way in high performance interconnection solutions based on popular industry standards including industry standard MIL-DTL-5015 and MIL-DTL-26482 specifications. The versatility of Weald's circular connectors is facilitated by a wide choice of shell sizes, styles, plug and socket contact types and contact arrangements.

As well as circular connectors, Weald Electronics manufactures two-part PCB connectors and subminiature plastic-bodied circular connectors and a comprehensive range of connector accessories, including high-performance and ultra-lightweight protective covers, nut plates and gaskets specifically designed for Motorsport and UAV applications.

Rayfast will have full access to the complete range of Weald products, which includes:

- Electrical connectors.
- Backshells and adaptors.
- Protective caps and dust covers.
- Connectors accessories.

Nick Wheeler, Sales Director for Weald Electronics says, "With their established and highly regarded presence in our industry, Rayfast will provide an excellent route to market for Weald Electronics, especially for customers who are looking for supply as part of a wider Harness Components portfolio of products, such as wire and cable, markers, tubing and heatshrink moulded shapes. The Weald product compliments their existing connector ranges and they have a superb team that is dedicated to sales, technical support and customer service"

Neil Ruddick, UK Sales Director for Rayfast, commented, "We are very excited to agree what I am sure will be a long-term partnership with Weald Electronics. Their excellent product range, capabilities and reputation for quality & customer service fit perfectly with

our core strengths in electrical interconnect, providing even greater depth and breadth of solutions for our customers.”

With design, manufacturing and test facilities at its Slinfold Lodge HQ in Sussex, Weald Electronics can tailor connector solutions to exactly meet a customer’s specific requirement on surprisingly short lead times, as well as bespoke value-added electrical and optical connector termination of connector product
