FOR IMMEDIATE RELEASE

Count On Tools Introduces Custom Fuji DX S1 Base for Specialized Pick-and-Place Applications

GAINESVILLE, GA — July 2026 — Count On Tools, Inc. (COT), a leading provider of precision components and SMT spare parts, has introduced Part No. 2026-5679, a custom Fuji DX S1 base manufactured to customer specifications. The assembly features a spring-loaded nozzle shaft, an 8 mm bellow suction cup, 16.05 mm center spacing, and ID dome clearance designed for a specialized Fuji pick-and-place application.

Part No. 2026-5679 is one of many custom components developed by Count On Tools to meet individual customer requirements. The company manufactures custom nozzles, tooling and precision machined parts for a wide range of SMT equipment.

"Not every application can be addressed with a standard component," said Curt Couch, Vice President of Count On Tools. "Our engineering team works directly with customers to develop custom tooling that meets their exact specifications, helping them overcome unique manufacturing challenges while maintaining reliable production."

Count On Tools manufactures a complete line of standard and custom SMT nozzles, tooling, and precision machined components for leading pick-and-place platforms. With in-house engineering and CNC machining capabilities, the company delivers custom solutions for component handling, placement accuracy and specialized manufacturing applications.
