FOR IMMEDIATE RELEASE

Count On Tools Adds Custom Universal IL7 Nozzle for Specialized SMT Assembly Applications

GAINESVILLE, GA — July 2026 — Count On Tools, Inc. (COT), a leading provider of precision components and SMT spare parts, has introduced **Part No. 2026-5682**, a custom Universal IL7 nozzle designed for the placement of the **Hirose DF40C-80DP-0.4V female socket**.

The custom nozzle features a **0.70 mm x 4.0 mm blade** engineered to securely handle the connector during the pick-and-place process. Manufactured to customer specifications, the nozzle provides the precision required for placing fine-pitch components used in today's high-density electronic assemblies.

"Many of the components used in electronics manufacturing require specialized tooling that isn't available as a standard part," said Curt Couch, President of Count On Tools. "We work with customers to develop custom nozzles that fit their application and help keep production running efficiently."

Count On Tools manufactures a complete line of standard and custom SMT nozzles, tooling and precision machined components for leading pick-and-place platforms, including Universal, Fuji, Panasonic, Yamaha, ASM, Juki and more. The company's engineering and manufacturing capabilities allow it to produce custom solutions for unique component geometries and challenging placement applications.

For more information, email Count On Tools' sales team at sales@cotinc.com or visit www.cotinc.com.

###

About Count On Tools Inc.

Count On Tools Inc., a precision component manufacturer specializing in all aspects of the machining industry, has been setting new performance standards in the SMT pick-and-place nozzle market since 1991. As the ORIGINAL source for high-quality, low-cost vacuum placement nozzles and associated consumables, they have pioneered with world-class development and process engineers that combine to ensure that innovation and competitiveness is applied to all of its extensive product range. The company also stands behind its products 100% with a full warranty. Count On Tools' products are in use at many of the world's leading electronics manufacturing companies. Proven engineering expertise, coupled with the latest in design and manufacturing technology, has allowed the company to simplify the complexities of the industry and deliver a solution to its customers.

The company also maintains and supports a strong position in the hand tool industry, offering the highest quality hand tools in the world with PB Swiss Tools. These tools compliment any and all high-tech environments requiring optimum performance from both their equipment and technicians.
