FOR IMMEDIATE RELEASE

Count On Tools Introduces Custom Large-Format Vacuum Nozzle for Yamaha YRM Platforms

GAINESVILLE, GA — Februry 2026 — Count On Tools, Inc. (COT), a leading provider of precision components and SMT spare parts, has introduced a custom large-format vacuum nozzle designed for Yamaha YRM pick-and-place platforms. The nozzle improves handling stability and pickup reliability for larger and heavier components commonly used in high-mix and specialized production environments.

The design features a 25 mm diameter base to increase surface contact and provide more stable vacuum pickup during placement. It is precision-machined to fit ANE locations 64, 66, and 68 and incorporates a 15.0 mm O-ring to ensure a tight seal and consistent pickup performance.

Well suited for applications where standard tooling may struggle with oversized or higher-mass components, the nozzle helps maintain placement accuracy while supporting reliable operation on Yamaha YRM equipment.

“This nozzle was developed in direct response to customer requests for improved handling of larger components on Yamaha YRM platforms,” said Curt Couch, Vice President of Count On Tools. “By increasing contact area and optimizing vacuum performance, we’re helping manufacturers maintain placement accuracy without sacrificing throughput.”

The custom Yamaha YRM large-format vacuum nozzle is available from Count On Tools as COT part number 2025-5627.

For more information about Count On Tools’ selective soldering nozzles and custom capabilities, email Count On Tools’ sales team at sales@cotinc.com or visit www.cotinc.com.

###

About Count On Tools Inc.

Count On Tools Inc., a precision component manufacturer specializing in all aspects of the machining industry, has been setting new performance standards in the SMT pick-and-place nozzle market since 1991. As the ORIGINAL source for high-quality, low-cost vacuum placement nozzles and associated consumables, they have pioneered with world-class development and process engineers that combine to ensure that innovation and competitiveness is applied to all of its extensive product range. The company also stands behind its products 100% with a full warranty. Count On Tools' products are in use at many of the world's leading electronics manufacturing companies. Proven engineering expertise, coupled with the latest in design and manufacturing technology, has allowed the company to simplify the complexities of the industry and deliver a solution to its customers.

The company also maintains and supports a strong position in the hand tool industry, offering the highest quality hand tools in the world with PB Swiss Tools. These tools compliment any and all high-tech environments requiring optimum performance from both their equipment and technicians.
