## ***Cetec ERP Announces Dates for Erpalooza 2025: A Live Training and Networking Experience for ERP Users***

**Austin, TX (May 2025)** – Cetec ERP is excited to announce the return of its flagship event, Erpalooza 2025, a two-day live training and networking conference tailored for manufacturers, distributors, and ERP users across the Cetec ecosystem. The event will take place October 21-22, 2025 at The Mansion (Texas Women’s Federation) in downtown Austin, TX.

Erpalooza brings together users from across industries to participate in hands-on workshops, in-depth product training, partner-led presentations, and face-to-face conversations with the Cetec ERP team. It’s a unique opportunity to strengthen ERP knowledge, build connections with fellow users, and discover best practices for streamlining business operations using Cetec’s powerful cloud-native ERP platform.

“Erpalooza is about more than just software training,” said the Cetec ERP team. “It’s about empowering our users with the tools, insights, and relationships they need to thrive in today’s complex manufacturing and distribution environments.”

The 2025 event will feature:

- Updates from the Cetec ERP team on growth, roadmap, and more
- Breakout sessions for both new and advanced users
- Expert-led training sessions and workshops
- Direct Q&A time with Cetec developers and support
- Networking opportunities in the heart of Austin

Held at the historic Mansion, Erpalooza 2025 offers a high-energy, informative, and collaborative atmosphere for ERP professionals looking to elevate their operations. With demand for digital transformation at an all-time high, the event serves as a critical touchpoint for teams seeking to unlock the full potential of their ERP investment.

**Registration is now open** at [cetecerp.com/erpalooza](http://cetecerp.com/erpalooza). Early registrants are encouraged to secure their spot and hotel accommodations soon, as capacity is limited.

#### **ABOUT CETEC ERP:**

Cetec ERP is disrupting a stagnant, high dollar industry that has resisted change for decades. Since 2015, and without any major marketing initiatives or venture capital funding, Cetec ERP has independently migrated hundreds of companies off legacy technology platforms like Oracle and NetSuite, saving companies hundreds of thousands of dollars, onto a new generation of lower cost ERP technology.
