Kurtz ErsA to Present Advanced Rework and Soldering Solutions at EPTECH Calgary 2025

Plymouth, WI — September 2025 — Kurtz ErsA Inc., a leading supplier of electronics production equipment, is pleased to announce its participation in the upcoming EPTECH Calgary event on Tuesday, October 28, 2025 at the Best Western Premier Calgary Plaza Hotel and Conference Centre. The company will exhibit in partnership with long-time Canadian representative Comtree Inc.

At this year's show, ErsA will spotlight its latest advancements in rework and soldering technology, including live discussions around the powerful HR 600 XL rework system. Engineered for precision and control, the HR 600 XL is designed to handle today's most challenging large-format, high-density assemblies—making it an ideal solution for the rework of BGAs, QFNs, connectors, and other complex components. With its intelligent process control and vision-assisted alignment, the system delivers repeatable results, even on the most sensitive boards.

Beyond rework, attendees can explore highlights from ErsA's broader portfolio of soldering and inspection equipment, including its industry-proven HOTFLOW reflow ovens. The HOTFLOW series continues to set the standard for energy efficiency, offering reduced energy savings and substantial reduction in nitrogen consumption without sacrificing thermal performance. These sustainability-driven innovations support manufacturers looking to enhance throughput while minimizing operational costs.

EPTECH Calgary offers an ideal setting for manufacturers to connect with ErsA and Comtree representatives, see equipment up close, and discuss practical ways to improve rework accuracy, streamline soldering processes, and reduce energy usage. Attendees are encouraged to stop by to learn how ErsA's solutions can support their specific production and repair challenges.

Representatives from both ErsA and Comtree Inc. will be on hand to provide system insights, answer questions, and help attendees identify equipment tailored to their specific production needs.

Comtree, Inc. is Kurtz ErsA's local representative. For more information about Comtree, e-mail Ernesto Provenzano at ernesto@comtreeinc.com, Graham Gibson P.Eng. at graham@comtreeinc.com, or call 905 673-7777.
