

FOR IMMEDIATE RELEASE

Evolve Manufacturing Wins 2025 Global Technology Award for Best Woman-Owned Contract Manufacturer

FREMONT, CA — November 2025 — Evolve Manufacturing Inc., a leading provider of end-to-end contract manufacturing services for medical device and life sciences instrument companies, has been awarded the 2025 Global Technology Award in the category of Best Woman-Owned Contract Manufacturer. The award was presented at a ceremony during productronica in Munich, Germany, celebrating standout achievements across the global electronics manufacturing industry.

Founded by Noreen King, Evolve Manufacturing has built a reputation as a trusted partner to OEMs in highly regulated and technology-driven markets. From its state-of-the-art facility in Fremont, California, the company provides full-service contract manufacturing for complex products, with capabilities that span cleanroom assembly, capital equipment builds, repair and service, and design-for-manufacturing support.

Noreen King, Evolve's CEO and founder, expressed gratitude for the recognition: "This award is a testament to our team's dedication and the strong relationships we've built with our customers. Every day, we focus on delivering the reliability, responsiveness, and technical excellence our partners count on. It's an honor to see that work recognized on a global platform."

Evolve supports a wide range of industries, including medical devices, life sciences, and semiconductor robotics. Its manufacturing operations are built to handle high-mix, complex assemblies with a focus on responsiveness and flexibility. Customers often collaborate closely with Evolve's engineering and production teams during prototype development and new product introductions, making use of dedicated lab space and on-site expertise.

Quality is foundational to Evolve's operation, with certifications and systems in place that meet and exceed the requirements for regulated industries. The company is FDA registered, ISO

certified, and recognized by the FDA's Case for Quality program, reflecting the strength and maturity of its quality systems.

Environmental responsibility is also central to Evolve's mission. The company actively works to reduce waste, increase energy efficiency, and source materials responsibly, all while supporting the fast-changing demands of its customers with speed and precision.

Since 2005, the prestigious Global Technology Awards have recognized the absolute best new innovations in the printed circuit assembly and packaging industries. It brings together the global SMT and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward.
