#### ICTC Joins SMTA to Advance Collaboration, Knowledge Sharing, and Electronics Manufacturing Excellence

**Brooksville, FL – January 2026** – Interconnect Cable Technologies Corporation (ICTC), a global contract manufacturer specializing in high-reliability electronic assemblies, cable and wire harnesses, PCB assemblies, and turnkey box builds, is proud to announce its new membership in the Surface Mount Technology Association (SMTA).

SMTA is an international network of professionals and companies dedicated to advancing electronics manufacturing through education, technical resources, collaborative events, and practical knowledge exchange. Its mission is to empower industry practitioners from design and component manufacturing to system integration and process engineering with the skills, insights, and connections needed to address real-world challenges and accelerate innovation.

Founded in 1988 and headquartered in Brooksville, Florida, ICTC has built a reputation for delivering precision manufacturing solutions with a global footprint. The company delivers end-to-end contract manufacturing solutions, including:

- **Cable & Wire Harness Assemblies** for aerospace, defense, medical, industrial, and transportation applications.
- **Printed Circuit Board Assembly (PCBA)** services with surface-mount, through-hole, and mixed technology production, backed by rigorous inspection and testing processes.

*Rob Ogilbee, CFO, ICTC*

- **Turnkey Electronic Box Builds**, providing complete integration of wiring, interconnects, PCBs, and mechanical assemblies.
- **Global Supply Chain Management**, leveraging a hybrid model that balances U.S.-based precision with trusted international operations in the Philippines and China to optimize cost, lead times, and quality.

“SMTA is where meaningful technical conversations happen,” said Rob Ogilbee, CFO ICTC USA. “Joining this community gives us the opportunity to share what we’ve learned, learn from others, and stay closely connected to where electronics manufacturing is headed.”

By joining SMTA, ICTC now participates in a community that fosters open technical dialogue and collaboration across the electronics manufacturing ecosystem. SMTA membership offers access to exclusive training, conferences, regional events, networking forums, and peer-to-peer knowledge exchange that drive industry innovation and elevate professional expertise.

ICTC maintains recognized industry certifications, including AS9100D, ISO 9001:2015, ISO 13485:2016, and compliance with UL, IPC/WHMA-A-620, ITAR, and RoHS standards.

#### **About ICTC**

Interconnect Cable Technologies Corporation (ICTC) is a global contract manufacturer providing high-reliability cable and wire harness assemblies, PCB assemblies, and electronic box builds. Headquartered in Brooksville, Florida, ICTC serves aerospace, defense, medical, industrial, and transportation markets with U.S.-based engineering supported by international manufacturing operations. The company is certified to AS9100D, ISO 9001:2015, and ISO 13485:2016 standards.

## ICTC Joins SMTA to Strengthen Industry Collaboration and Advance Electronics Manufacturing Innovation

**Brooksville, FL – January 2026** – Interconnect Cable Technologies Corporation (ICTC), a global contract manufacturer of high-reliability electronic assemblies, cable and wire harnesses, PCB assemblies, and turnkey box builds, announces its membership in the Surface Mount Technology Association (SMTA).

SMTA is a global association dedicated to advancing electronics manufacturing through education, technical resources, and collaborative knowledge sharing. Its membership spans the full electronics manufacturing ecosystem, enabling professionals to exchange practical insights, address industry challenges, and accelerate innovation.

Founded in 1988 and headquartered in Brooksville, Florida, ICTC provides comprehensive contract manufacturing solutions, including:

- **Cable and Wire Harness Assemblies** supporting aerospace, defense, medical, industrial, and transportation applications
- **Printed Circuit Board Assembly (PCBA)** services with surface-mount, through-hole, and mixed-technology capabilities, supported by rigorous inspection and testing
- **Turnkey Electronic Box Builds** integrating wiring, interconnects, PCBs, and mechanical assemblies
- **Global Supply Chain Management** through a hybrid model combining U.S.-based precision manufacturing with established operations in the Philippines and China to optimize cost, quality, and lead times

“SMTA is where meaningful technical conversations take place,” said **Rob Ogilbee, CFO of ICTC USA**. “Joining this community allows us to contribute our experience, learn from industry peers, and remain closely connected to the evolving landscape of electronics manufacturing.”

Through its SMTA membership, ICTC gains access to advanced training, technical conferences, regional events, and peer-to-peer collaboration opportunities that support continuous improvement and professional development across the organization.
