InoBright Smart Storage by Inovaxe Earns 2025 Global Technology Award for Innovative Feeder Management

Boca Raton, FL — November 2025 — Inovaxe, a world leader and provider of innovative material handling and inventory control systems, is proud to announce that its InoBright Smart Storage Management System has won the 2025 Global Technology Award in the Component Storage – Smart Rack Systems category. The award was presented during a ceremony at productronica in Munich on Tuesday, November 18, 2025.

The InoBright Smart Storage Management System transforms traditional pick-and-place feeder carts into connected, intelligent storage assets. By giving operators real-time visibility into component locations, orientation, and setup status, the system helps eliminate errors, speed up changeovers, and keep SMT lines running efficiently.

“InoBright was designed to make one of the most error-prone steps in SMT production simple and reliable,” said Margy Khoshnood, Executive VP at Inovaxe. “Winning this award is a strong signal that our approach is making a real difference for manufacturers, helping them save time, reduce mistakes, and run smoother operations.”

The system integrates easily with existing SMT workflows and a wide variety of feeder systems, giving manufacturers flexible control over material handling. With smart data tracking and intuitive operation, InoBright allows teams to identify issues before they impact production and respond quickly, improving both efficiency and traceability.

With its combination of speed, accuracy, and connected intelligence, InoBright is helping electronics manufacturers optimize their lines while supporting modern, Industry 4.0-ready operations. Since 2005, the prestigious Global Technology Awards have recognized the absolute best new innovations in the printed circuit assembly and packaging industries. It brings together the global SMT

and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward. For more information, visit www.globalsmt.net.

About Inovaxe Corp.

Inovaxe Corporation is focused on delivering innovative ultra-lean SMART production and inventory management solutions to the electronics industry. The Company's product offering includes mobile InoAuto Smart carts (IA series), Smart racks (SR series), Line Side racks (LS Series) and Smart stationary racks (SREX series) to store SMT reels, tubes, trays, cut tape and loose parts. We provide a Smart MSD cabinet (IMSD) for moisture sensitive device storage and a Smart stencil rack storage solution (SRS series). We offer a material planning/kitting management tool with our InoAuto inventory management software for storing, locating and picking components.
