FOR IMMEDIATE RELEASE

JAVAD EMS Marks 15 Years of Innovation and Growth in High-Reliability Manufacturing

San Jose, CA — January 2025 — JAVAD EMS (JEMS), a leading global EMS company that provides low to medium volume, high-mix applications, is pleased to announce its 15th anniversary as a premier force in the high-reliability manufacturing sector. Founded in 2010 and located in the heart of Silicon Valley, JEMS has built a reputation for delivering complex, mission-critical products with the highest precision, quality and innovation.

Gary Walker, President of JAVAD EMS

Since its inception, JEMS has served industries where failure is not an option, including aerospace, subsea exploration, satellite systems, and secure communications. Over the years, the company has expanded its capabilities to meet the evolving needs of these high-stakes markets, delivering cutting-edge solutions that support the most demanding applications.

“As we celebrate 15 years of growth and success, we reflect on the trust we’ve built with our customers for delivering high-quality, highly complex solutions,” said Gary Walker, President of JAVAD EMS. “Our team has always been at the core of our success, and through their dedication, we’ve created a collaborative culture focused on exceeding customer expectations every day. We’re proud of our role in advancing mission-critical technology, and we’re excited for the next chapter of innovation ahead.”

JAVAD EMS has continuously advanced its PCBA capabilities, providing placement capability for 01005 components, microBGAs, package-on-package, double-sided BGA assembly, lead-free and leaded assembly, and aqueous wash processes. The company also boasts state-of-the-art automated inspection systems, including inline 3D solder paste inspection, automated optical PCB inspection, and 3D X-ray inspection systems. These capabilities, combined with end-to-end materials traceability, make JEMS a trusted partner for industries requiring the highest levels of reliability and performance.

JEMS' reputation in the Mil/AS sector has grown substantially, with increasing customer demand for its “Made in USA” products. This, along with its ability to produce highly complex, reliable products with full traceability, positions JAVAD EMS as a leader in high-reliability manufacturing.
