FOR IMMEDIATE RELEASE

JAVAD EMS Successfully Passes AS9100 and ISO 13485 Certification Audits

San Jose, CA — May 2025 — JAVAD EMS (JEMS), a leading global EMS company that provides low to medium volume, high-mix applications, is proud to announce the successful completion of its certification audits for AS9100 and ISO 13485, reinforcing its position as a trusted partner for high-reliability markets including Aerospace & Defense and Medical Devices.

These internationally recognized certifications demonstrate that JEMS maintains robust, process-driven quality management systems to ensure the highest levels of performance, traceability, and regulatory compliance.

- **AS9100** is the aerospace industry's quality management standard, building upon ISO 9001 and tailored to meet the strict requirements of aviation, space, and defense manufacturers.
- **ISO 13485** sets the global standard for quality management systems in medical device manufacturing, requiring stringent controls for risk management, documentation, and product safety.

Maintaining these certifications is a reflection of our team's focus on quality and process discipline," said Gary Walker, President, JAVAD EMS. "Our ability to meet the demanding requirements of aerospace and medical device OEMs is built on a foundation of operational excellence and continuous improvement."

JEMS serves a diverse customer base spanning Medical, Aerospace & Defense, Industrial, and Automotive sectors. Known for its vertically integrated operations and state-of-the-art facility in San Jose, JAVAD EMS supports every stage of the product lifecycle—from design and prototyping to volume production and final system integration.

With growing demand for U.S.-made electronics in the military and aerospace sectors, JEMS is at the forefront of high-complexity, high-reliability manufacturing. For more information, contact JEMS at 408-770-1700, info@JAVADems.com or visit www.JAVADems.com.

###

About JAVAD EMS

JAVAD EMS (JEMS) is a San Jose, CA-based EMS company that was founded with the vision of focusing on low to medium volume, high-mix applications for customers that need prototype through volume production and want to get it from one source. JEMS' headquarters is a 40,000 sq. ft. state-of-the-art facility in the heart of Silicon Valley,

updated to the highest standards of electronics manufacturing services, communication, client support, employee comfort and training. Today, JEMS is thriving and boasts five continuous flow SMT lines complete with inline 3D SPI and AOI. For more information, visit www.JAVADems.com.
