For Immediate Release

Where Innovation Meets Insight: Luminovo Hosts Premier Munich Electronics Night 2025 Ahead of productronica

MUNICH, GERMANY – October 2025 – Luminovo, the number one quoting, procurement and collaboration software for the electronics supply chain, is hosting its highly anticipated Munich Electronics Night 2025, an exclusive pre-productronica event bringing together 200 of the industry's most influential leaders, innovators, and decision-makers.

Taking place from 5-11 pm at Fancy Rosi, a modern venue in the heart of Munich's old town, this invitation-only gathering is designed to foster genuine connections, spark meaningful dialogue, and showcase the future of electronics supply chain intelligence.

Unlike traditional conferences, Munich Electronics Night is a curated experience built for interaction, inspiration, and collaboration. Guests will enjoy an evening of insightful presentations, live technology showcases, and relaxed networking – complete with gourmet food, drinks, and an after-show party featuring a live DJ.

The evening's keynote session, "*A New Era of Electronics Supply Chain*," will explore how intelligence, transparency, and automation are reshaping the journey from design to production. Featured speakers include Sebastian Schaal, Managing Director of Luminovo; Franz Xaver Feiner, VP of Sales & Marketing; and Dieter Weiss, CEO & Industry Advisor.

Munich Electronics Night is proudly powered by SiliconExpert, GreenChips, and NCAB Group, three industry leaders recognized for advancing sustainability, intelligence, and PCB innovation. For more information about this premier event or to request a ticket, [click here](#).

About Luminovo

Luminovo is a leading SaaS company building the platform for the electronics supply chain. Designed to streamline monitoring, quoting, and procurement processes, Luminovo's software enables supply chain collaboration by connecting EMS providers, distributors, suppliers, PCB manufacturers, and ERP systems. By breaking down data silos and automating critical workflows, Luminovo helps electronics companies reduce costs, improve efficiency, and accelerate time-to-market.
