## Medco West Achieves ITAR Registration, Expanding Capabilities for Defense and Export Markets

**HACKENSACK, N.J. — January 2026 —** Medco West Electronics, Inc., a leader in high-quality electronic assemblies, today announced it has achieved ITAR Registration, enabling the company to support customers in defense and export-controlled applications.

In addition to ITAR, Medco West is ISO 9001:2015 certified, IPC certified, RoHS compliant, and holds the Assembled in the USA designation. Its dedicated production tracking system provides full visibility across the manufacturing process, delivering real-time updates and ensuring on-time delivery.

Applying Design for Manufacturability (DFM) principles, Medco West continuously improves production processes and offers proactive guidance that helps customers reduce costs and enhance product performance. With a focus on quality, traceability, and reliability, the company has become a trusted partner for complex electronic assembly projects.

“Getting ITAR Registration opens new doors for our customers and our business,” said Peter Sowinski, President, Medco West. “It gives companies that work in regulated markets confidence that their products are built securely and meet all the necessary standards. For us, it’s about being ready for the projects that demand the highest level of trust and compliance.”
