

## **Nordson Test & Inspection Wins 2025 Mexico Technology Award for Industry-Leading MXI Solution**

**Minneapolis, Minnesota** — September 2025 — [Nordson Test & Inspection](#) is proud to announce that it has been awarded a 2025 Mexico Technology Award in the category of Inspection – AXI for its cutting-edge Quadra® 7 Pro MXI System. The award was presented during a ceremony at SMTA Guadalajara, recognizing the most innovative technologies advancing electronics manufacturing in Mexico.

Engineered for back-end semiconductor and SMT inspection, the Quadra® 7 Pro delivers breakthrough performance with Nordson's proprietary Onyx® detector, setting a new standard in image clarity and ultra-low noise output. The system is designed to meet the evolving challenges of advanced electronics packaging, miniaturization, and complex assemblies—making it an essential tool for manufacturers focused on precision and reliability.

“Winning the Mexico Technology Award reinforces our focus on pushing the boundaries of inspection performance,” said Brian Dodier, Vice President, XRT Division, Nordson Test & Inspection. “The Quadra® 7 Pro MXI System is the result of years of innovation and collaboration with our customers to deliver sharper images, faster analysis, and greater process insight in even the most demanding production environments.”

At the heart of the system is the Dual Mode Quadra NT4® X-ray source, which allows users to switch effortlessly between high-brightness and high-resolution modes—maximizing flexibility and efficiency across applications. Paired with Revaluation™ software, the platform simplifies operation and enhances decision-making through intuitive workflows, real-time analytics, and robust image processing tools.

Designed for semiconductor and SMT applications for vertical such as automotive, aerospace, and high-reliability applications, the Quadra® 7 Pro enables faster failure analysis and supports the zero-defect initiatives driving Industry 4.0.

The Mexico Technology Awards recognize the most recent technological innovations in Mexico's manufacturing landscape, spotlighting achievements by OEM manufacturing equipment and materials suppliers over the past year. **About Nordson TEST & INSPECTION**

Nordson TEST & INSPECTION, a global leader in Inspection and Metrology Solutions, offers its SMT & Semiconductor customers a broad, differentiated portfolio of Acoustic, Optical and both Manual and Automated X-ray Inspection systems, X-ray Component Counting systems and Semiconductor measurement sensors. Nordson TEST & INSPECTION is uniquely positioned to serve its customers with best-in-class precision technologies, passionate sales and support teams, global reach, and unmatched consultative applications expertise.

**About Nordson**

Nordson Corporation (Nasdaq: NDSN) is an innovative precision technology company that leverages a scalable growth framework through an entrepreneurial, division-led organization to deliver top tier growth with leading margins and returns. The Company's direct sales model and applications expertise serves global customers through a wide variety of critical applications. Its diverse end market exposure includes consumer non-durable, medical, electronics and industrial end markets. Founded in 1954 and headquartered in Westlake, Ohio, the Company has operations and support offices in over 35 countries. Visit Nordson on the web at [www.nordson.com](http://www.nordson.com), [www.twitter.com/Nordson\\_Corp](https://www.twitter.com/Nordson_Corp) or [www.facebook.com/nordson](https://www.facebook.com/nordson).
