FOR IMMEDIATE RELEASE

PANDA Robotics USA Recognized in 2025 TITAN Innovation Awards: Season 2 for Excellence in Robotic Technology

Kenosha, Wisconsin – November 11, 2025 – The 2025 TITAN Innovation Awards has officially announced the winners of Season 2, celebrating outstanding achievements in technology, design, and digital transformation. Through honoring PANDA Robotics USA as a 3-Time Gold Winner in the category of Robotic Technology, Automation Technology, and Manufacturing Technology, these awards continue their mission to recognize technologies and ideas that drive progress, elevate user experience, and strengthen industries across the globe.

In its third year, the award received over 5,500 entries from more than 40 countries, reinforcing its position as one of the leading international competitions for innovation and design excellence. The diversity of submissions highlights the TITAN Awards' role in recognizing organizations that redefine the boundaries of performance, creativity, and impact.

Winning Entry Details

Entry Title: PANDA 460 Series
Laser Marking Machine

Location: Kenosha, Wisconsin,
USA

Company / Individual:
PANDA Robotics USA

Industry Impact: Electronics
Manufacturing & Smart
Factory Automation

Winner's Statement

"We are deeply honored to receive the TITAN Innovation of Design Award for our PANDA 460 Series Laser Marking System," said Michael T. Goldberg, Co-Founder and Lead Designer

of PANDA Robotics USA. "This recognition celebrates more than aesthetics — it affirms our belief that intelligent engineering and purposeful design can coexist beautifully. Every contour, motion, and detail of the PANDA 460 was created to inspire confidence and elevate automation for the modern factory. To be recognized on a global stage reinforces our mission to design machines that perform with precision — and feel legendary."

"This season's winners showcase how innovation is best recognized when delivering impactful outcomes," said Thomas Brandt, spokesperson of International Awards Associate (IAA). PANDA Robotics recognition in TITAN reflects a standard of quality that defines this award and strengthens its place within the global industry."

About PANDA Robotics USA

PANDA Robotics USA forges the future of automation through design, precision, and vision. From the recently award-winning PANDA 460 Laser Marking System to the most awarded soldering robot in the world: the PANDA 600 Series Intelligent Robotic Soldering System; every creation embodies mastery in motion. Born from a legacy of engineering excellence, the company redefines what world-class automation feels like — building machines that command respect, elevate craftsmanship, and set new standards for the electronics manufacturing industry.

About TITAN Innovation Awards

The TITAN Innovation Awards is an international program honoring excellence in technology, design, and innovation that influences global industries. From startups to established organizations, the awards recognize submissions that demonstrate originality, efficiency, and transformative impact — shaping the next era of industrial and digital progress.
