## PARMI Expands Mid-Atlantic Sales Coverage with Cope Assembly Products

**San Diego, CA – July 2026** – PARMi, a leader in advanced 3D inspection systems, has announced that Cope Assembly Products (CAP) is representing the company's inspection solutions throughout Delaware, Maryland, West Virginia, Virginia, North Carolina and South Carolina.

Founded in 1993, Cope Assembly Products has built a long-standing reputation supporting OEMs, contract manufacturers and microelectronics companies throughout the Mid-Atlantic region. Based in Northern Virginia, the firm represents a range of electronics manufacturing equipment and works closely with customers to identify solutions for SMT and semiconductor production.

"Travis Cope and Ted Kress have developed strong relationships throughout the region and understand the challenges electronics manufacturers face every day," said Juan Arango, Head of Sales and Business Development, PARMi USA. "They know the equipment, they know the customers, and they're a great fit for PARMi."

As PARMi's regional representative, CAP supports the company's complete portfolio of inspection systems, including the INTELLION 3D AOI platform with PARMi's TRCS-II sensor technology, the XCEED-II and XCEED DSI 3D AOI systems, the SIGMAX 3D solder paste inspection platform, the PCI 100 DSI conformal coating inspection system, and the PRECION 2D/3D AOI system for fine wire bond inspection and dimensional measurement.

“PARMI has built a strong reputation for inspection technology, and we’re pleased to represent their products,” said Travis Cope, President of Cope Assembly Products. “Our customers are looking for solutions that improve process control and product quality, and PARMi offers a broad range of systems to support those goals.”

PARMI develops automated inspection and measurement systems for electronics manufacturing, with solutions for solder paste inspection, automated optical inspection, conformal coating inspection and semiconductor applications. The company's technologies help manufacturers improve process control, reduce defects and increase production quality across a wide range of electronic assemblies.

### **About PARMi**

PARMI is a manufacturer specializing in 3D inspection equipment used to improve print quality and yield in SMT production lines. Throughout its 28 year history, the company has specialized in developing in-house expertise in laser measurement and software support. PARMi is a global leader in Electronics product inspection in 3D. For more information, visit [www.parmi.com](http://www.parmi.com).
