**SMTA Announces Expansion of Advanced Electronics Assembly
Conference into Asia**

MINNEAPOLIS, Minn. -- The SMTA announced the Advanced Electronics Assembly Conference (AEAC) is expanding to Asia through a new partnership with the Thailand Printed Circuit Association (THPCA.) The conference will be part of Thailand Electronics Circuit Asia (THECA), from August 26-28, 2026, at BITEC in Bangkok, Thailand.

The conference technical presentations take place on Wednesday, August 26. Industry experts from companies including Gen3 Systems, ViTrox, Europlacer, NMTronics, and KB Consulting/Keiron will share practical insights into the latest advances in electronics manufacturing reliability, automation, SMT production, and emerging manufacturing technologies designed to improve quality, traceability, productivity, and operational efficiency.

The partnership with THPCA strengthens SMTA's presence across the Asia-Pacific supply chain and connects SMTA's global network with Thailand's growing hub for PCB, PCBA, and electronics manufacturing.

Registration is [available online](#) through THECA's website and includes access to the entire program on both days as well as conference proceedings, refreshment breaks.

If there are any questions, please call +1-952-920-7682 or email karlie@smta.org. For more information, visit <https://smta.org/aeac-asia-program>.

SMTA - A Global Association Working at a Local Level

The SMTA membership is an international network of professionals who build skills, share practical experience and develop solutions in electronic assembly technologies, including microsystems, emerging technologies, and related business operations.
