### Arbell Electronics Named ZESTRON's 2026 Distributor of the Year at APEX EXPO

**Manassas, VA** – March 24, 2026: ZESTRON, the global leader in high-precision cleaning solutions for the electronics manufacturing industry, is pleased to announce that Arbell Electronics has been named the recipient of its Annual Distributor Award. The award was presented on March 18, 2026, during the APEX EXPO in Anaheim, California, honoring Arbell Electronics's exceptional performance and the strength of a partnership that has consistently delivered outstanding results year after year.

ZESTRON established this annual award to recognize distributor partners who exemplify good partnership, commercial excellence, and a deep alignment with ZESTRON's mission to deliver world-class cleaning solutions to the electronics manufacturing market. Arbell Electronics was selected for its remarkable track record of consistent, sustained growth and its reliable, long term partnership.

"Arbell exemplifies what a true long-term partnership looks like," said John Neiderman, Director of North America Sales at ZESTRON. "Year after year, they have delivered consistent growth, earned the trust of customers, and championed ZESTRON's solutions with integrity and expertise. This award is our way of recognizing a partner who genuinely raises the bar for what distributor excellence means."

Since the beginning of their collaboration, Arbell Electronics has proven to be a dependable and growth-oriented partner, continuously expanding ZESTRON's market presence in Canada and ensuring customers receive the highest level of technical support and service. ZESTRON looks forward to building on this successful foundation as both organizations pursue further growth in the years ahead.

**About ZESTRON:**

ZESTRON is headquartered in Manassas, Virginia, and operates in over 35 countries. With eight technical centers worldwide and the industry's most knowledgeable team of engineers focused on high-precision cleaning, ZESTRON's commitment to ensuring that its customers surpass even the most stringent cleaning requirements is without equal.
