## **Q Source Adds Metro Stainless Steel Type 316 Carts to Its Pharma-Grade Offering**

**BOHEMIA NY — October 2025 —** Q Source has expanded its Metro Pharma Solutions offering with the addition of Grade A Pharma Carts built from Type 316 stainless steel. The new carts provide exceptional corrosion resistance and long-term durability for cleanrooms, pharmaceutical labs, and biotech facilities that require the highest standards of hygiene and compliance.

*Type 316 and 304 Stainless Steel*

Every element of the Grade A Pharma Cart is engineered for performance in contamination-controlled environments. From the solid stainless-steel shelves and reinforced corners to the cart-washable casters, each component is designed to endure frequent cleaning, sterilization, and chemical exposure without compromising its structure or finish. The result is a cart that preserves contaminant-free conditions while maintaining mechanical integrity through years of rigorous use.

Metro offers the Grade A Pharma Cart in both Type 304 and Type 316 stainless steel to suit different applications. Type 304 stainless remains a popular choice for cleanrooms thanks to its balance of strength, corrosion resistance, and ease of fabrication. Type 316 stainless, however, takes performance further. Its enhanced molybdenum content provides greater protection against pitting and crevice corrosion, making it ideal for environments exposed to harsh sanitizers, chlorine-based cleaning agents, and high humidity.

The addition of Type 316 construction gives manufacturers and cleanroom operators a premium solution for applications where chemical resistance and contaminant control are critical. Whether used in a pharmaceutical gowning area, production line, or laboratory workspace, Metro's Grade A Pharma Carts deliver the reliability and cleanliness essential to regulated environments.

Metro's full line of Grade A Pharma Solutions, including stainless-steel carts, benches, and shelving, is now available through Q Source. To learn more, visit [www.qsource.com](http://www.qsource.com).
