SMarTsol Technologies Takes Home 2025 Global Technology Award for Distributor Leadership in Mexico

JALISCO, MEXICO — November 2025 — SMarTsol Technologies, the largest technical services and equipment provider for North and Central America, has earned the 2025 Global Technology Award in the Distributors – Mexico category, recognized for its strong presence and impact in the electronics manufacturing industry. The award was handed out during productronica in Munich, Germany, on Tuesday, November 18, 2025.

Known for offering world-class assembly and test & inspection equipment, consumables, productivity tools, automation, and manufacturing execution systems, SMarTsol stands out with its hands-on approach. With teams and demo centers across Guadalajara, Ciudad Juárez, Tijuana, Monterrey and Querétaro, plus a warehouse just across the border in El Paso, TX, **and the upcoming office opening in Dallas**, the company keeps turnaround times fast and service responsive.

“Our goal is to bring the right technology and support to manufacturers when and where they need it,” said Ivan Romo, Director of SMarTsol Technologies. “Whether it’s equipment, training, or technical help, we make sure our customers have what it takes to keep production running smoothly.”

SMarTsol represents more than 20 globally recognized brands, including ASMPT, Nordson Test & Inspection, KYZEN, Kurtz Ersä, Sonotek and Techman Robot, providing solutions across capital equipment, test and measurement, automation, consumables, and materials. Its unique approach combines in-depth process knowledge with rapid deployment capabilities, backed by one of the region’s most experienced technical service teams.

One of the company’s competitive advantages is its ability to deliver advanced production equipment from stock, eliminating long lead times and enabling customers to move quickly on new production opportunities. This capability, along with its expanding U.S.-based support network, is designed to meet the needs of OEMs and EMS providers looking for both speed and reliability in a high-mix, high-tech environment.

Since 2005, the prestigious Global Technology Awards have recognized the absolute best new innovations in the printed circuit assembly and packaging industries. It brings together the global SMT and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward.
