SP Manufacturing Brings World-Class EMS Expertise to MD&M East 2025

Singapore — May 2025 — SP Manufacturing Pte Ltd., a leader in comprehensive electronic manufacturing services, is pleased to announce its participation in the MD&M East 2025 exhibition, taking place May 20–22 at the Jacob K. Javits Convention Center in New York City. Visit SP Manufacturing at **Booth 944** to explore how the company's world-class PCBA, cable harness, and box build assembly capabilities are powering innovation across critical industries.

Known for its exceptional first-pass yield performance, SP Manufacturing delivers high-quality results from the very first production run. With industry-leading certifications including ISO 13485, AS9100D, IATF 16949, ISO 9001, and ISO 14001, the company is a trusted partner for customers in the medical, aerospace, automotive, industrial, telecommunications, and renewable energy sectors. Its certification to IPC-A-610 and IPC/WHMA-A-620 standards—as well as FDA, UL, and CSA compliance—further underscores its commitment to the most stringent quality and regulatory benchmarks.

At MD&M East, SP Manufacturing will highlight its service offerings, including advanced functional and in-circuit testing, automated optical inspection (AOI), state-of-the-art cleaning systems, and rapid prototyping. The company also brings deep expertise in supply chain management, helping customers optimize time-to-market while maintaining cost efficiency and product integrity.

“MD&M East brings together the most innovative minds in the medical and manufacturing sectors, and we’re proud to be part of this community,” said Jackson Tan, Global Business Development Director, SP Manufacturing. “We look forward to sharing how our vertically integrated solutions and focus on delivering high-quality results can support companies developing next-generation products in highly regulated environments.”
