SP Manufacturing Highlights Advanced EMS Capabilities at MD&M Midwest 2025

Singapore — September 2025 — SP Manufacturing Pte Ltd., a leader in comprehensive electronic manufacturing services, will showcase its advanced electronics manufacturing services at MD&M Midwest 2025, October 21–22 at the Minneapolis Convention Center. Attendees can visit Booth 2431 to see how SP's expertise helps companies in highly regulated industries bring complex products to market with speed and confidence.

Known for delivering exceptional first-pass yield performance, SP Manufacturing consistently achieves high-quality results from the very first production run. The company supports demanding sectors such as medical, aerospace, automotive, industrial, telecommunications, and renewable energy. Its impressive certifications—ISO 13485, AS9100D, IATF 16949, ISO 9001, and ISO 14001—along with compliance to IPC-A-610, IPC/WHMA-A-620, FDA, UL, and CSA standards, reinforce its ability to meet the toughest global regulatory and quality requirements.

At the show, SP will spotlight its functional and in-circuit testing, AOI inspection, advanced cleaning technologies, and rapid prototyping services. Visitors will also learn how the company's supply chain expertise reduces costs and accelerates time-to-market without sacrificing product integrity.

"MD&M Midwest is a great opportunity to connect directly with innovators in the medical and high-tech manufacturing space," said Jackson Tan, Global Business Development Director, SP

Manufacturing. "We're excited to share how our team, processes, and technology come together to help customers tackle their most challenging projects."

To learn more about SP Manufacturing's capabilities and its role in advancing medical and high-reliability electronics manufacturing, visit www.sp-manufacturing.com or connect with the team during MD&M Midwest 2025.

About SP Manufacturing:

SP Manufacturing is a premier provider of electronic manufacturing services, offering a wide range of solutions including PCB assembly, box build, and comprehensive supply chain management. With a focus on quality, innovation, and customer satisfaction, we deliver exceptional value and support to businesses across various industries.
