## **SP Manufacturing to Exhibit at MD&M West 2026**

**Singapore — January 2026** — SP Manufacturing Pte Ltd., a global contract manufacturer specializing in electronics and complex assemblies, announced today that it will exhibit at MD&M West 2026, taking place February 3-5, 2026, at the Anaheim Convention Center in Anaheim, California. Visitors are invited to meet the SP Manufacturing team at Booth 2873 to explore comprehensive manufacturing solutions for medical device and equipment companies.

At MD&M West, SP Manufacturing will emphasize its commitment to serving the medical technology sector by showcasing its capabilities in printed circuit board assembly (PCBA), cable and wire harness fabrication, and full box build manufacturing. Additionally, the company will highlight its U.S.-based design and development, prototype support services, aimed at helping West Coast medical OEMs accelerate product development while maintaining quality and regulatory compliance.

“MD&M West represents an ideal platform for SP Manufacturing to engage directly with medical device innovators on the U.S. West Coast and beyond,” said David Wang, Senior Business Development Manager at SP Manufacturing Pte Ltd. “We look forward to discussing how our integrated manufacturing services, from early-stage involvement engineering support to complete assembly, can help OEMs reduce time to market, improve product performance, and strengthen supply chain resilience.”

SP Manufacturing’s presence at MD&M West underscores its strategic focus on expanding partnerships with medical device companies seeking a trusted contract manufacturing partner capable of delivering high-quality manufacturing, engineering support, and logistical excellence. Attendees interested in learning more about SP Manufacturing’s services and capabilities are encouraged to visit Booth 2873 throughout the show.
