STI Electronics Celebrates the Retirement of SMT Assembly Technician Jane Layne After a Decade of Dedicated Service

Madison, AL – April 2026 – STI Electronics, Inc., a full-service organization providing training services, training materials, analytical/failure analysis, prototyping, and contract electronic manufacturing, announces the retirement of SMT Assembly Technician **Jane Layne**. STI appreciates the 10 years of dedicated service, craftsmanship, and commitment to excellence.

During her tenure, Layne played an important role in supporting SMT assembly operations, contributing to the production of high-quality electronic assemblies and upholding the company’s standards for precision and reliability. Her steady work ethic, attention to detail, and team-oriented mindset made her a valued member of the manufacturing team.

“Jane has been a dependable and respected part of our SMT operations,” said David Raby, President/CEO. “Her contributions over the past decade have helped strengthen our production capabilities, and she will be greatly missed by her teammates.”

Throughout her career at STI Electronics, Layne was known for her consistency, positive attitude, and willingness to support others on the production floor. Colleagues describe her as someone who could always be counted on during busy production schedules and tight deadlines.

As she steps into retirement, Layne leaves behind a legacy of dedication and professionalism that has made a lasting impact on both her team and the organization as a whole.

STI Electronics extends its deepest gratitude to Jane Layne for her years of service and wishes her all the best in this exciting new chapter.
