## See SASinno Americas' Full Line of PCB Assembly Machines at the 2026 APEX EXPO

**WASHINGTON, MO — February 2026 —** SASinno Americas will showcase its complete range of printed circuit board (PCB) assembly solutions at Booth 1242 during the 2026 APEX EXPO, March 17-19, 2026 at the Anaheim Convention Center. From automated inspection to wave soldering and coating, the display highlights equipment designed to make production faster, more accurate, and easier to manage.

Attendees can see SASinno Americas' advanced lineup in action, including:

- **Insertion Indicator Station (IIS-120-460XL)** – Guarantees precise component placement.
- **Tilt Conveyor (BT-400-510XXL)** and **Reject Conveyor (CYC510XXL)** – Streamline material flow and defect handling.
- **THT Components AOI (AD-65MP, 510mm)** – Automated through-hole inspection.

- **Wave Soldering Machine (IWA-3 / 60TN) and Wave Solder Unloading Conveyor (MWN510XXL)** – Supports high-reliability wave soldering.
- **Elevator Conveyor (TRE510XXL) and 2 in 1 Loader (LDF460XL)** – Keeps production moving efficiently.
- **Laser Marking System (LM-510C)** – High-speed marking for traceability.
- **Coating Machine (SC-903R) and Coating Inspection (CI-900)** – Ensures high-quality protective coatings.
- **Offline Selective Soldering Machine (Ultra-i2), Solder Pot Trolley, Independent Heating Rack, and Automatic Stencil Printer** – Complete solutions for soldering and printing needs.

“This year at APEX, we’re giving attendees a chance to see our full line of machines working together to simplify complex PCB assembly,” said Mike Young, CEO/General Manager, SASinno Americas. “It’s one booth where manufacturers can see how to increase speed, reduce errors, and improve overall production flow.”
