Surf-Tech Manufacturing Corp. Honored for Exceptional Flexibility with 2025 CIRCUITS ASSEMBLY Service Excellence Award

RONKONKOMA, NEW YORK — October 2025 — Surf-Tech Manufacturing Corp., a multi-faceted provider of contract manufacturing services, is proud to announce it has received the 2025 CIRCUITS ASSEMBLY Service Excellence Award (SEA) in the Flexibility (EMS Under \$20M) category. The award was presented to Stephen Eggart, President of Surf-Tech Manufacturing Corp., by Mike Buetow, President of the Printed Circuit Engineering Association (PCEA) during a ceremony held on October 21 at the Rosemont Convention Center as part of SMTA International 2025.

Now in its 33rd year, the Service Excellence Awards are the only recognition program in the electronics manufacturing industry based entirely on direct customer feedback. Companies are evaluated across critical areas including dependability and timely delivery, ease of use, manufacturing quality, responsiveness, technology, and overall value.

“Flexibility is at the heart of our business model, so receiving this award is especially meaningful,” said Stephen Eggart, President of Surf-Tech Manufacturing Corp. “Our customers know they can rely on us to adapt quickly, whether it’s for rapid prototyping, turnkey solutions, or scaling production. This recognition validates the trust they place in our team and the pride we take in supporting their success.”

For more than 30 years, Surf-Tech has served customers in the medical, industrial, and commercial sectors, offering precision assembly, rapid prototyping, and turnkey solutions for complex electronics. Leveraging deep supply-chain expertise, Surf-Tech helps customers move seamlessly from consigned orders to full turnkey engagements, often achieving significant cost savings.

The company’s expanded facility provides a full suite of services, including:

- Surface Mount and Through-Hole Assembly

- Box Build and Electro-Mechanical Integration
- BGA Rework and Repair
- Rapid Prototyping
- End-Customer Order Fulfillment

Surf-Tech operates to ISO 9001:2015 standards, is ITAR registered, and follows IPC-A-610 Class 2 and 3 requirements, giving customers confidence in the quality and reliability of every build.

Sponsored by *CIRCUITS ASSEMBLY*, the Service Excellence Awards highlight companies that consistently deliver exceptional customer service, providing an industry benchmark for satisfaction and performance.
