FOR IMMEDIATE RELEASE

XLR8 EMS Welcomes Raul Jorge Lopez Jr. as Director of Program Management and Procurement

SAN DIEGO, CA — July 2026 — XLR8 EMS, a leader in fast, reliable and high-quality PCBA manufacturing solutions, is pleased to announce that Raul Jorge Lopez Jr. has joined the company as Director of Program Management and Procurement.

Lopez brings more than 25 years of experience in electronics manufacturing, program management, operations and business development. Throughout his career, he has managed complex customer programs supporting the medical, aerospace and defense industries, with a strong focus on customer satisfaction, operational excellence and long-term business growth.

His experience includes managing multimillion-dollar customer programs, leading cross-functional teams and supporting successful new product introductions from prototype through production. He has extensive knowledge of program management, supply chain coordination, process improvement and quality systems, helping customers successfully navigate complex manufacturing requirements while meeting demanding production schedules.

"Raul brings the kind of experience that fits well with how we work," said Steve Dutton, Chief Sales Officer. "He understands the challenges our customers face, communicates well and knows what it takes to keep programs moving. We're excited to have him on the team."

As Director of Program Management and Procurement, Lopez will lead XLR8 EMS's project management and procurement teams, helping strengthen collaboration across departments while ensuring customer programs move efficiently from quote through production. He will oversee project execution, supplier coordination and procurement strategy, working closely with engineering, manufacturing and customers to support on-time delivery, quality performance and operational excellence.

"I'm excited to join XLR8 EMS and be part of a team that's focused on delivering quality and building strong customer relationships," said Lopez. "I look forward to working with our customers and internal teams to continue building efficient processes that support our customers' success."

XLR8 EMS provides fast, reliable and high-quality PCBA manufacturing solutions for customers across a wide range of industries. By combining advanced manufacturing technology with rigorous quality standards and responsive customer support, the company helps customers move seamlessly from prototype through production.
