ubersmt Launches “First Build On Us” Program to Accelerate New Product

Byron Center, MI – May 2026 – ubersmt, a U.S.-based electronics manufacturing services provider, today announced its new “First Build On Us” program, offering free PCB assembly for qualifying new customers through Summer 2026.

ubersmt
FIRST BUILD ON US.
Free PCB Assembly for Qualifying New Customers

LIMITED TIME ONLY THROUGH SUMMER 2026

FAST TURN
QUALITY YOU CAN TRUST
REAL COMMUNICATION. REAL PEOPLE.
U.S.-BASED. U.S.-FOCUSED.

PROGRAM PARAMETERS

- ✓ New customers only
- ✓ Quantities from 1–100 boards
- ✓ Fewer than 100 unique part numbers
- ✓ Single- or double-sided assemblies
- ✓ Standard rigid PCBs; flex circuits accepted with applicable setup fee

GREAT IDEAS. REAL SOLUTIONS. BUILT TO MOVE. WWW.UBERSMT.COM

Designed for engineers, startups, and product teams ready to move, the program removes one of the biggest barriers in early-stage development: getting that first build done quickly, correctly, and without upfront cost.

“We’re not interested in being just another vendor, we want to be the partner you call first,” said Michael Antwih, President of ubersmt. “If you have a design ready, we’ll build it and show you exactly how we operate. That’s how long-term relationships start.”

The program is built specifically for prototype and early production work, with clear parameters to ensure speed and responsiveness:

- New customers only
- Quantities from 1-100 boards
- Fewer than 100 unique part numbers
- Single- or double-sided assemblies
- Standard rigid PCBs; flex circuits accepted with applicable setup fee

Rather than a promotion, ubersmt sees this as a proving ground and an opportunity to demonstrate its speed, communication, and execution from day one. “This is about earning the next build,” Antwih added. “Once customers see how we move, they don’t go anywhere else.”

Availability is limited, and projects are being accepted now.
