KYZEN Focuses on Aqueous Cleaning Solutions and Process Monitoring and Control at SMTA Chihuahua Expo and Tech Forum

NASHVILLE — August 2026 — KYZEN, the global leader in innovative environmentally friendly cleaning chemistries, will exhibit at the SMTA Chihuahua Expo & Tech Forum scheduled to take place on Thursday, August 20 at Hotel Sheraton Soberano in Chihuahua capital, Chihuahua. KYZEN's Mexico cleaning experts will be on-site providing information about aqueous chemistries AQUANOX A4618 and A4727 in addition to the KYZEN Process Control System (PCS).

KYZEN's award-winning AQUANOX line of aqueous cleaning chemistries including AQUANOX A4618 and A4727 are formulated to alleviate flux cleaning challenges in a variety of PCBs and are effectively monitored by controlled by tools like the KYZEN Process Control System.

[AQUANOX A4618](#) is a groundbreaking aqueous cleaning chemistry designed to address the challenges of cleaning contemporary lead-free flux residues, including no-clean residues, while achieving mirrored solder finishes. It is formulated to effectively clean all flux types and boasts a long tank life with high efficacy at lower concentrations and temperatures.

[AQUANOX A4727](#) is an enhanced, GreenScreen Certified aqueous assembly cleaner proven effective in cleaning all solder flux residues including Pb-free and No-Clean formulations. A4727 is compatible with a wide variety of components, coatings, labels, and equipment and meets the cleaning requirements of advanced technologies while producing a stable pH and maintaining superior risibility.

The [KYZEN Process Control System](#) controls, monitors, and effectively reacts to the dynamic changes wash bath concentrations. KYZEN PCS is designed to maximize output from inline cleaning systems and remains the only complete concentration monitoring and control system in the world.

For more than 35 years, KYZEN has developed innovative chemistries and process control instruments to work hand in hand with a wide range of cleaning processes. For more information, visit www.kyzen.com.

About KYZEN

KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards. For more information, visit www.kyzen.com.
