Chelsea Jewell to Present on Pre-Immersion Cleaning Chemistries at OCP Global Summit 2026

NASHVILLE — September 2026 — KYZEN, the global leader in innovative environmentally responsible cleaning chemistries, is proud to announce that Chelsea Jewell, KYZEN Application Lab Manager, will present as part of the Open Compute Project (OCP) Global Summit scheduled to take place from October 12-15, 2026, at the San Jose Convention Center in San Jose, California.

On Wednesday, October 14 at 2:15 pm PST, Jewell will present "Before the Fluid: How Pre-Immersion Cleaning Chemistry Shapes Long-Term Electronic Reliability" in Room 220C on the concourse level.

During the presentation, Jewell will emphasize that the cleaning chemistry used and the degree from which it was removed from a board prior to immersion consequentially impacts reliability variables in the deployment chain.

Supporting evidence throughout the presentation will include leakage current measurement findings showing that pre-cleaning chemistry type, residue load, and rinsing effectiveness are detectable as electrical degradation signatures in immersion environments.

Jewell will further explain that boards with nominally equivalent fluid exposure and component populations showed divergent EID trajectories attributable to upstream cleaning process differences. Additionally, she'll show that the implications of board reliability extend to procurement, inbound inspection, and fluid qualification protocols, suggesting that cleaning for immersion is a distinct process requirement.

Backed by more than 35 years of continuous innovation, KYZEN remains the industry's trusted worldwide partner providing technical expertise on precision cleaning of electronic assemblies.

About KYZEN
KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards. For more information, visit www.kyzen.com.
